

SUMMARY

Enthusiastic BCA student with a solid foundation in computer science. Possesses strong technical skills and a passion for creating innovative technologies. Seeking opportunities to apply knowledge and drive technological advancements and to contribute to innovative projects and expand my expertise in Web / Software development or other relevant field.

SKILLS

HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB
Web Designing, SQL (DBMS), Python, Microsoft Office, Git, GitHub.

Projects

MEDIAVIBE MEDIA PLAYER

Tech Stack: HTML, Tailwind CSS, JavaScript, Express.js, MongoDB

- Developed a dynamic music player website with a MongoDB backend for user data and playlist management.
- Implemented music playback features such as play, pause, shuffle, and more.
- Designed a responsive and user-friendly interface across various devices.
- Integrated MongoDB as a backend to manage user data .

Weather Website

Tech Stack: React, Tailwind CSS, Express.js, OpenWeather API

- Created a weather forecasting website that provides real-time weather data by integrating the OpenWeather API.
- Developed a backend with Express.js to handle requests and API integration efficiently.
- Built a modern, responsive design using React and Tailwind CSS.

Daily Global News Website

Tech Stack: React, Tailwind CSS, Express.js, Firebase, RESTful API, OpenAI's GPT model

- Developed a news website with multiple categories (Health, Politics, Entertainment).
- Created an admin panel for content management and data uploads.
- Integrated a RESTful API for backend communication and Firebase for database management.
- Powered the website with React for frontend and added an AI chatbot using OpenAI's GPT model for user interaction.
- Planned future feature enhancements for better functionality.

EDUCATION

Chandigarh University

Bachelor's in Computer Application , CGPA : 7.84

Aug 2021 - Jun 2024

KL Arya D.A.V Public School , Hisar

12th , Percentage: 92%

Apr 2020 - Mar 2021

10th , Percentage: 84%

Apr 2018 - Mar 2019

CERTIFICATIONS

React JS Training - Infosys Springboard

Completed a comprehensive React JS course from Infosys Springboard, gaining in-depth knowledge of key React concepts such as:

- Component-based architecture for building modular and reusable UI elements.
- State and props management to handle dynamic data and UI updates.
- Utilized React Hooks for managing side effects and state without using classes
